*or*
    - Model: Acuant ScanShell 800DXN
  - or*
  - Driver's License & Passport Scanner
    - Model: Desko PENTA Scanner Cube 4X
  - Acuant Drivers, Software License, and Document Library (required for ID Scanners)

## Kiosk Requirements

Every **Kiosk** (HQ or remote) using TrustVisitor must have the following:

- Microsoft Surface
  - Pro 8 with Intel Core i5 processor
  - 16GB RAM
  - Windows 11 Professional or Enterprise

The following **Kiosk** peripherals are *optional*:

- Contact/Contactless Card Reader-
  - Model: HID OMNIKEY 5422  
Part no: R54220301
    - This peripheral allows Visitors to check-in via Kiosk by presenting their Smart Card. Without this peripheral, Visitors can still check-in for an Event via Kiosk, but their check-in options are limited to scanning a QR Code or manually entering their name.
    - This peripheral also allows unscheduled Visitors who have a Smart Card to initiate an unscheduled meeting request via Kiosk by presenting their Smart Card. Without this peripheral, unscheduled Smart Card Visitors cannot request an unscheduled meeting via Kiosk (they will have to do so through the Lobby Guard station).
- Driver's License Scanner, *or* Driver's License & Passport Scanner-
  - Driver's License Scanner
    - Model: Acuant ID-150  
*or*
    - Model: Acuant ScanShell 800DXN
      - This peripheral allows unscheduled Visitors who have a Driver's License to initiate an unscheduled meeting request via Kiosk by scanning their Driver's License.
  - or*
  - Driver's License & Passport Scanner
    - Model: Desko PENTA Scanner Cube 4X
      - This peripheral allows unscheduled Visitors who have a Driver's License or a Passport to initiate an unscheduled meeting request via Kiosk by scanning their Driver's License or Passport. Without an ID Scanner peripheral, unscheduled Non-Smart Card Visitors cannot request an unscheduled meeting via Kiosk (they will have to do so through the Lobby Guard station).
  - Acuant Drivers, Software License, and Document Library (required for ID Scanners)
